

# AGRU Poly-Flo

## DIMENSION EXPANSION FOR PE 100-RC

- Little space required for installation
- Quick and easy welding by simultaneous welding
- Full pressure resistance of the carrier pipe
- No extra spacers necessary
- Easy handling when shortening pipes
- Cost effective system
- Annular gap optimized to minimum
- Manufactured in just one production process

### Standard PE 100-RC

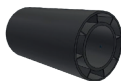

DIM 50/32	SDR 17/11
DIM 90/63	SDR 17/11
DIM 160/110	SDR 17/11

### Extension PE 100-RC

DIM 160/110	SDR 33/17
DIM 225/160	SDR 33/17
	SDR 17/11

### Fitting/Pipes new Dimensions

segmented		machined	
211 (90° Bend)		193 (Endcap)	
213 (45° Bend)		198 (Reducer)	
192.1 (45° Tee)		197 (Transition)	
214 (Tee)		196 (Measuring)	
		196.1 (Measuring)	
<b>extruded</b> 785.1 (Pipe)		196.2 (Measuring)	

No injection moulded parts
