

Tee 45° Injection molded Code 036

Advantages & attributes:

Special design

- Injection molded fitting
- Perfect flow characteristics
- Butt- and electrofusion welding

Premium material PE 100-RC

- Resistance against slow crack growth
- Cost saving installation without sand bed

Premium material PP-R

- Outstanding temperature resistance
- Outstanding corrosion resistance
- Outstanding strength, stiffness & hardness

Guaranteed traceability of each part

- Batch number
- Traceability code PE 100-RC
