

## New AGRU PVDF-UHP Tee reduced

OD 63/20 up to OD 63/40

To meet the continuously growing requirements for high-purity piping systems, AGRU is constantly upgrading and expanding its product range of PVDF-UHP fittings. The latest development are our PVDF-UHP reduced tees (Code 35.065):

**Total part length** has been reduced to allow more compact plant design and ecological packaging. **All tees are weldable** by butt-, IR- and beadless welding.

- Tee reduced
- long spigot
- injection moulded
- Butt + IR + HPF-welding
- PVDF UHP natural
